Toogoolawah State High School’s Deductible Gift Building Fund has been founded to assist in our goal of being ‘The School of Choice’.

‘The School of Choice’ refers not just to the definition of being a first preference for choice of educational institution but to the diverse curriculum and pathway options that Toogoolawah State High School offers. When your student comes to Toogoolawah State High School, it is our intention that they will attend classes in modern buildings and receive the benefits of using up-to-date amenities. This will be made possible through generous contributions to the Building Fund.

**Why the Fund was formed?**
The philosophy and expectations of the school embraced by Toogoolawah State High students gives them a distinct advantage throughout their lives. Maintaining a commitment to specific educational objectives has taken years of dedication and hard work from the staff, parents, and the supporters of Toogoolawah State High School.

The “Deductible Gift Building Fund” was formed to ensure this work does not falter because of lack of facilities.

**Air-conditioning the School**
The temperature of a classroom has a vital role in determining the performance of students and teachers. Aside from affecting concentration levels of the students, humidity and extremely hot temperatures during summer can cause fatigue and nausea. The design of the School’s buildings makes air-conditioning classrooms the most viable way of keeping the temperature inside classrooms down.

The Toogoolawah State High School P & C recognises the positive impact that air-conditioned classrooms will have on student comfort levels and is working towards this goal. Whilst the School and P & C are working to source additional funding to complete the work, we are asking for assistance. By making a tax deductible contribution, you can make a difference in the learning of present and future students.

**Why Toogoolawah State High Needs Extra Funding to Prosper**
While government funding provides a base level of income, additional resources are required to facilitate the innovative programs offered at the school. To deliver progressive and valuable outcomes for our community, it has become obvious that Toogoolawah SHS requires an additional source of finance.

**Fund Operations**
The Fund raises capital through tax-deductible contributions from parents and grandparents of current and past students as well as alumni, community members and business organisations.

**How You Will Affect the Future of Toogoolawah State High School**
When you contribute to the Fund, you will know you are influencing the future in a very real way. With the aid of the Fund, Toogoolawah State High will continue to realise its goal of nurturing each student intellectually, emotionally, physically and socially. All students will be given the opportunity to develop their character so they can go into our world and contribute in a positive way. Your children will benefit, and so will their children, and their children’s children ……for generations to come.

**What Some Parents in other Funds Say**
…..I have contributed to the Fund to ensure the continuation of excellent educational facilities at the school for present and future students. The added incentive of tax deductibility is a bonus.

….. I was drawn to donate to the Fund, above the huge number of appeals for funds one receives from other organisations, because it gave me a concrete opportunity of expressing my gratitude to the people who provided for me, as a young student at the same school, an invaluable preparation for life.
Contribution Form
